

The cost of the system is made up of 2 parts:

A- The monthly service:

Unlimited Canada and US line at \$29.99 each

Each extension at 4.99 each

E911 Service at \$1.99 per month

For example: A total of 5 lines will cost you $5 \times \$29.99$

$= \$149.95 + 20 \text{ extensions} \times \$4.99 = \$99.8 + 1 \text{ E911 service} \times \$1.99 = \$249.75 + \text{government taxes}$

B- The equipment:

Please note that if your telephone devices are compatible with the VoxSun system you will only need the VoxSun router and the reconfiguration service. Here is the list of compatible phones:

<https://www.voxsun.com/en/telephony-devices/>

Telephone sets:

Using the same example, you would need 20 Yealink phones...

$20 \text{ T41S} \times \$139.99 = 2799.98 + 1 \text{ router} \times \$99.99 + 1 \text{ system setup for} \$99.99 = \$2999.78$

Here is the list of all our devices:

<https://www.voxsun.com/en/telephony-devices/>

VoxSun hardware is under warranty and of course financing solutions are available for purchases over \$2,000.
